

AL8000 HT

LIGHT TOWER

Features

Articulated hydraulic mast provides maximum flexibility and control for quick, effortless light positioning.

8.5m vertical height, 6.0m horizontal outreach and 359 degree powered rotation.

2.5m stowed length provides for ease of transport for towing or transportation on a trailer or container.

Environmental spill containment to meet local regulations or for use in sensitive areas.

100 km/h towing speed for ease of transport.

100 km/h wind speed rating for max flexibility on site.

Individual plug-in ballasts installed in galvanized steel boxes. Can be replaced without disconnecting wiring terminals.

Control panel is inside, away from the elements. Houses main and branch circuit breakers and hourmeter.

Galvanized outriggers with pre-set position stops ensure quick and proper spacing.

Single point lifting eye and forklift pockets provide for easy loading and unloading.

Australian mining configuration designed specifically to meet Australian regulations and mining application requirements.
